Oxford Companion to the Affective Sciences Oxford University Press Personality and Emotion William Revelle Department of Psychology Northwestern University Klaus R. Scherer Swiss Center for Affective Sciences University of Geneva Personality is the coherent patterning of affect, behavior, cognition, and desires (goals) over time and space. Just as a full blown emotion represents an ...

To appear in: Oxford Companion to the Affective Sciences

Emotional learning begins at a very young age, as children discover a wide range of emotions, and evolves as they grow. This topic aims to provide a better understanding of the key stages of emotional development, its impacts, interrelated skills, and the factors that influence emotional competence.
