

wayfinding people signs and pdf

However, signs do play a key role in any wayfinding system and need to link with the other wayfinding information people will receive. If signs are designed to be understandable for a first-time visitor, and people with visual impairments have been considered, they should be effective for all site users. Each type of sign has features or uses which need to be considered in addition to the general issues discussed in section 3. For example,

Wayfinding for people who are visually impaired - Brighton

And signs are the authorities in information spaces, providing locally relevant wayfinding cues. The remaining principle, the fifth, ties the structure of the space to the task of interest - communication of some body of knowledge - by ensuring that the route the navigator takes will expose him to the ideas the communicator wishes to express.

5. Design Principles for Wayfinding - ai.mit.edu

Architect and environmental psychologist Romedi Passini and his collaborator Paul Arthur published two of the first comprehensive works on wayfinding: *Wayfinding in Architecture* (1984) and *Wayfinding, People, Signs and Architecture* (1992). These studies provided an understanding of the behavioral and cognitive abilities associated with spatial navigation and reaching a desired destination. An ...
